TASK SHEET REVIEW 3	33

ACKNOWLEDGEMENT

First, we would like to express our appreciation to our teacher, Mr. Nguyen Ngo Phuoc, FPT-Aptech Department, and FPT Academy International, for giving us this opportunity to do the first project of this course and providing invaluable guidance throughout this project.

Once again, a special gratitude to our teacher, for his helpful contributions and suggestions. Beside that, his guidance and encouragement helped us to complete our project in the best way.

Next, we would like to thank FPT Academy International for giving us the great opportunity to practice what we have learnt into reality. It is also a chance for us to increase our experience and confidence when we have to face an interview as we have worked on a project.

Finally, we are so thankful to our teammates for their support and hard work. Our deepest thanks and appreciations also go to our friends, who helped us out with their abilities to complete this project directly or indirectly.

SYNOPSIS

32 Smiles Website is a website created to provide information, courses and news related to dental health care. Beside that, it also helps many people increase the awareness about dental problems and how to improve their oral health.

When the customers log on to 32 Smiles Website, they can find many courses about this field. Furthermore, this Website has an expert team who are ready to answer questions for the customers about the problems they are in. And the patients can know their therapeutic process through health treatment.

In addition, this Website also provides the services and products that are in terms of dental health.

If they are not satisfied with their experiences at our website, they can give us the feedback in the Contact Us section at the end of this website.

PROBLEM STATEMENT

Dental or oral health is concerned with your teeth, gums and mouth. The goal is to prevent complications such as tooth decay (cavities) and gum disease and to maintain the overall health of your mouth.

A healthy mouth, free of infections, injuries and other problems with teeth and gums, is important in maintaining your overall health.

Although a different set of medical professionals focuses on dental health, they are still part of your regular health care team.

Disease and other conditions can affect your dental health and dental problems can affect other parts of your body. Failing to properly care for your oral health may lead to other health problems.

You can help prevent or minimize many oral health problems by regular preventive steps (brushing, flossing and so on) and regular visits to dental health professionals.

Hence to increase awareness and provide all information about dental care, we are looking for developing a website “32smiles.com” based on the requirements mentioned below.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc.

REQUIREMENT SPECIFICATION

The Web site is to be created based on the following requirements:

1. The Homepage should display the images that related and some latest information/researches in the field.
2. In addition, there should be a classified menu with related sub menus.
3. Sample list of pages/menu options are as described below:
 1. Professional education: This principally includes the education assistance for students and practitioners. This can have further categories such as finding related courses, help documents, faculty resources, student resources, case studies etc, ...
 2. Patient education: Including general and necessary information for the patients suffering from any of the oral/dental issues.
 3. Research: This should have the latest research in this field. Necessary documents, videos etc (media library) is expected here.
 4. Products: As the name indicates, this should have all the related products. Here sub categories can be done based on numerous types of products like tooth pastes, brushes, special products for kids, electrical accessories etc.
4. There should be site map.
5. Contact us page: contact us page here should list various dental expert's contact details for further treatment / assistance/ guidance. Their location should be displayed by using GeoLocation API (eg: Google Maps).
6. Overall website should be simple for people to use.

HARDWARE/SOFTWARE REQUIREMENTS

❖ For webmaster

Hardware

- Intel Pentium 4 processor or higher
- 1 Gigabytes of RAM or higher

Software

- Windows 7 OS or higher
- Sublime Text 3, Visual Studio Code
- Bootstrap 4, jQuery, AngularJS, AOS, SweetAlert 2
- HTML5 and Javascript supporting web browsers such as IE, Chrome, Firefox, Opera...

❖ For web users

Hardware

- Intel Pentium 4 processor or higher
- 512 Megabytes of RAM or higher

Software

- Windows XP OS or higher
- HTML5 and Javascript supporting web browsers such as IE, Chrome, Firefox, Opera... (*Website best running on Chrome browser*).

SCOPE OF THE WORK (IN BRIEF)

Having carefully reviewed all requirements, our team agreed that 32 SMILE Project should have the following pages:

1. HOME: Display some related images and the latest News in the Dental field. Provides brief information about our information dental experts and also our services. There will be form registration for user's inconvenience.
2. EDUCATION: This mainly provides news/articles/research which purpose is mainly to provide dental education/useful information for students or any practitioners.
3. TREATMENTS: provide useful and general information for everybody about how to keep healthy teeth.
4. EXPERTS: This represents 32 SMILE line-up of doctors who are experts in the dental field.
5. PRODUCTS: This includes two main sub-menus: Equipment and Services, which provide related products and other services currently being offered.
6. CONTACT US: This provides user contact details in case of further treatment/assistance/guidance and also our development team.

5. Treatments

a. Description:

Display some useful information how to keep healthy teeth.

b. Screenshot:

The screenshot displays the 32 Smiles website, which is a resource for dental health information. The header includes the site's name, "32 SMILES", and navigation links for Home, Education, Experts, Treatments, Products, and Contact. The main content area features several articles with accompanying images:

- Simple At-home Treatments**: An article about maintaining oral health at home, featuring a woman smiling.
- How to pull a baby tooth**: A guide on safely removing a loose baby tooth, including a close-up image of a child's mouth.
- How to Get Rid of Cavities**: An article explaining the causes of cavities and how to prevent them, featuring a close-up of a tooth being examined with a dental mirror.
- How to Clean Each Type of Retainer**: A guide on cleaning different types of dental retainers, featuring a close-up of a person's mouth with a retainer.

The footer of the website includes a "32 SMILES" logo, a "Links" section with various categories, a "Recent Blog" section with two articles, and a "Services" section listing various dental procedures. The footer also includes a copyright notice for 2020.

JAVASCRIPT DESCRIPTION

This chapter will provide information about JavaScript function integrated in the website

1. Form validation for Appointment Registration on Homepage

a. Description:

Validate when user submit form, making sure they have fully entered: First name, Last name and Date while Service and Time is select by default.

b. Screenshot:

```

homepage.validate.js
var fName = document.getElementById("fname");
var lName = document.getElementById("lname");
var dateline = document.getElementById("date");

//Validate user First Name
function validationFirstName(event, name) {
    let userNameValue = name.value;
    if (userNameValue == "") {
        alert("Please enter your First Name!");
        name.focus();
        event.preventDefault();
        return false;
    } else {
        return true;
    }
}

//Validate user Last Name
function validationLastName(event, name) {
    let lastName = name.value;
    if (lastName == "") {
        alert("Please enter your Last Name!");
        name.focus();
        event.preventDefault();
        return false;
    } else {
        return true;
    }
}

// Validate input Date from user
// Date must be later than the current date
// Accept only Monday to Friday
function checkDate(event, date) {
    let userDate = date.value;
    let dt = new Date(userDate);
    let currentDate = new Date();
    if (userDate) {
        if (dt <= currentDate) {
            alert("Please select a date later then today!");
            date.focus();
            event.preventDefault();
        } else {
            if (dt.getDay() === 6 || dt.getDay() === 0) {
                alert("Please choose from Monday to Friday only");
                date.focus();
                event.preventDefault();
            } else {
                return true;
            }
        }
    }
}

function success() {
    alert(
        "Thank you for your registration!" + "\n32 SMILES will contact you shortly"
    );
}

let btn = document.getElementById("firstSubmit");
btn.onclick = function (event) {
    if (validationFirstName(event, fName)) {
        if (validationLastName(event, lName)) {
            if (checkDate(event, dateline)) {
                success();
            }
        }
    }
};

//generic functions
function validationFooterEmail(event, email) {
    let emailValue = email.value;
    let pattern = /^[a-z][a-z0-9_.]{5,32}@([a-z0-9]{2,}(\.[a-z0-9]{2,4}){1,2})$/;
    if (emailValue == "") {
        alert("Please enter your email!");
        email.focus();
        event.preventDefault();
        return false;
    } else if (emailValue.match(pattern)) {
        return true;
    } else {
        alert("Please enter the correct email format. Example: abc@yahoo.com");
        email.focus();
        event.preventDefault();
        return false;
    }
}

//email subscribe at Footer
var footerEmail = document.getElementById("footerEmail");
let footerBtn = document.getElementById("footerSubmit");
footerBtn.onclick = function (event) {
    if (validationFooterEmail(event, footerEmail)) {
        alert("Thank you for subscribing us!");
    }
}

```

2. Form validation for email at every Footer of any page

a. Description:

Validate when user input their email to subscribe news, ... from 32 SMILES

b. Screenshot:

```
function validationFooterEmail(event, email) {
    let emailValue = email.value;
    let pattern = /^[a-z][a-z0-9_.]{5,32}@([a-z0-9]{2,}(\.[a-z0-9]{2,4}){1,2})$/;
    if (emailValue === "") {
        alert("Please enter your email!");
        email.focus();
        event.preventDefault();
        return false;
    } else if (emailValue.match(pattern)) {
        return true;
    } else {
        alert("Please enter the correct email format. Example: abc@yahoo.com");
        email.focus();
        event.preventDefault();
        return false;
    }
}

//Email subscribe at Footer
var footerEmail = document.getElementById("footerEmail");
let footerBtn = document.getElementById("footerSubmit");
footerBtn.onclick = function (event) {
    if (validationFooterEmail(event, footerEmail)) {
        alert("Thank you for subscribing us!");
    }
};
```

3. Form validation for comment section at each post in “EDUCATION”

a. Description:

Validate when user wants to submit their comment.

b. Screenshot:

```
//Function to validate email for Footer
function validationFooterEmail(event, email) {
    let emailValue = email.value;
    let pattern = /^[a-z][a-z0-9_]{5,32}@([a-z0-9]{2,}(\.[a-z0-9]{2,4}){1,2})$/;
    if (emailValue === "") {
        alert("Please enter your email!");
        email.focus();
        event.preventDefault();
        return false;
    } else if (emailValue.match(pattern)) {
        return true;
    } else {
        alert("Please enter the correct email format. Example: abc@yahoo.com");
        email.focus();
        event.preventDefault();
        return false;
    }
}

// Validate user Full Name
function validationBlogFullName(event, name) {
    let userNameValue = name.value;
    if (userNameValue === "") {
        alert("Please enter your Full Name!");
        name.focus();
        event.preventDefault();
        return false;
    } else {
        return true;
    }
}

// Validate input message
function validationBlogMessage(event, message) {
    let userMessage = message.value;
    if (userMessage === "") {
        alert("Please enter your message!");
        message.focus();
        event.preventDefault();
        return false;
    } else {
        return true;
    }
}

var blogFullName = document.getElementById("blogName");
